OVERVIEW >>>

▶ Reference Player in
Transport and
Bunkering

COMPANY — INTRODUCTION

Tradem Srl is a company specialized in transport and logistics, operating since 1981 and grown from a family business into a recognized national and international player. Over the years, we have invested in state-of-the-art vehicles and satellite monitoring technologies to ensure safe, punctual, and fully traceable services for our customers at all times. Today, we rely on a team of highly skilled professionals and on an organization capable of managing the entire transport chain, from planning to final delivery.

CORE SERVICES

Tradem offers a comprehensive range of services dedicated to the transport and logistics sector, designed to meet the needs of industrial, energy, and chemical companies

01 BUNKERING

For ships, ferries, and other vessels, managing the entire process as delivery agent.

02 FREIGHT SERVICES

Land, air, and sea logistics tailored to your needs.

03 INTEGRATED LOGISTICS SERVICES

Specialized services for time-sensitive shipments.

BUNKERING

the core of our expertise

We can boast over 30 years of experience in supplying cruise ships and various types of vessels, operating within diverse and highly regulated port environments.

Our established presence in major Italian and European ports allows us to manage complex operations with high safety standards, providing support both dockside and on board, when required.

SERVICE AREAS

Tradem's bunkering service is available:

- In all Italian ports
- In the main European hubs, with particular focus on several strategic areas, including:
 - Fos Sur Mer, Laverà, Marseille, Sete
 - Rijeka, Pola, Zadar, Split
 - Barcelona, Valencia, Malaga, Algeciras
 - Koper
 - Hamburg

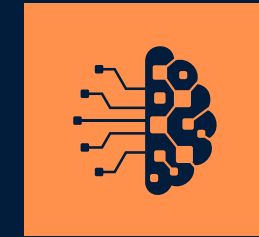

WHY CHOOSE US?

DELIVERY AGENT

360° Management:
from coordination
with shipping agents
to customs clearance

AI INTEGRATION

Using AI to optimize
routes and enhance
shipment visibility.

TIMELY DELIVERY

A strong track record
of meeting deadlines
and customer
expectations.

RELIABILITY

Consistent
performance with a
focus on long-term
client relationships.

SAFETY & COMPLIANCE

Safety is the primary criterion guiding the design and management of every bunkering operation:

- Vehicles undergo strict periodic inspections
- Drivers and operators are trained in ADR regulations, port security, and emergency procedures
- Use of tracking systems and satellite monitoring to follow vehicles in real time
- Certifications and authorizations issued by Port Authorities and competent bodies, enabling us to carry out bunkering and ship supply operations in various European ports, in full compliance with the requirements of the Navigation Code

LET'S WORK TOGETHER

With over forty years of experience in transport and logistics, and more than thirty years of specialization in marine bunkering, Tradem positions itself as a reliable and well-structured partner for the management of fuel supplies in Italy and across Europe
